The Best Choice!

SNEI is an environmental consulting firm with offices in Las Vegas, Nevada and Victorville, California. Our team of degreed biologists are in-house trained to provide mitigation services for sensitive, threatened, and endangered species in the Mojave Desert, with emphasis on the desert tortoise and migratory birds on both small and large-scale construction projects. SNEI has over 25 years of experience working with large utility companies, private contractors, and Federal, State, and local governments.

A Step Above

- Extensive in-house biologist training program
- Utility linear construction project specialists
- Mojave desert ecology experts
- Extensive on-site linear construction project experience, problem solvers, work well with construction personnel
- Excellent customer service
